

C500 Coin Counter/Off-Sorter

Fast, Accurate & Reliable

The C500 combines the most desirable features of a coin counter in one compact and portable machine. With a counting speed of over 2000 coins per minute, it is one of the fastest portable coin sorters in the industry.

Off-Sorting and Batch Counting

The C500 includes all the counting modes you would expect to find on larger machines, plus memory function. Batch mode counts amounts as low as 20 coins. Off-sorting feature allows counting of one denomination while sorting out all other coins.

Works with Foreign Coins or Tokens

The C500 can be set to work with just about any coin or token, including canadian coins, mexican coins, and others. Just set the machine to the correct coin measurements and start counting!

Perfect for Vending Routes

The C500 is portable and foldable, easy to carry, set up and use. Fast counting, sorting into bags, and durable construction.
