

Time Guardian® Fingerprint

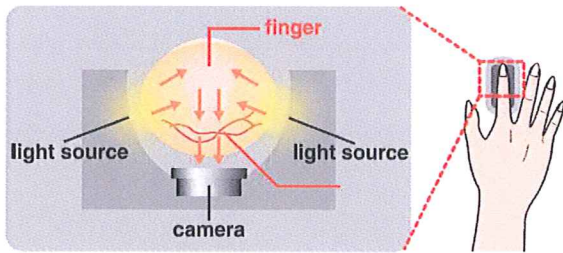

Complete Biometric Time Clock System

Time Guardian® FPT-80 is an employee time tracking system designed to eliminate "buddy punching" through fingerprint recognition. The FPT-80 sports a color display for easy navigation, advanced algorithm and a hi-tech reader. This new biometric time clock system accommodates 2 users, 100 employees (upgradeable) and department transfers. It minimizes payroll management, eliminates the cost of issuing and reissuing cards and badges and reduces manual calculation errors. The Time Guardian® FPT-80 interfaces with most common payroll applications, thereby providing a complete turn-key solution to accurately and efficiently manage your payroll.
